Is the Title Appropriate?

To the Editor:

I read with interest the excellent article by Jadon, *et al*¹ titled "Serum Soluble Bone Turnover Biomarkers in Psoriatic Arthritis and Psoriatic Spondyloarthropathy" published in the January 2015 issue of *The Journal*.

Although the title mentions "psoriatic spondyloarthropathy," the authors have not described any study or details pertaining to biomarkers in psoriatic spondyloarthropathy in the entire article. The title is misleading, in my opinion. Thank you.
