The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Editorials

Managing Comorbidities in the Rheumatic Diseases: The New Reality  B. Wang ............................................899
Cases of Early Inflammatory Polyarthritis Should Not Be Classified as Having RA  
D.P.M. Symmons, J.M.W. Hazes, A.J. Silman ...........................................902
Can Progression of Radiographic Joint Damage Be Predicted Early in RA?  A.E. Voskuyl, M. Boers . . . . . .905
Clinical Evaluation Versus Ultrasonography: Who Is the Winner?  W. Grassi ...........................................908
The Use of Biochemical Markers of Bone and Cartilage Metabolism to Monitor Osteoarthritis — Dreams and Reality  P.J. Roughley, S. El-Maadawy ...........................................910

Articles

Corticotropic-Releasing Hormone Promoter Polymorphisms in Patients with RA from Northwest Spain  M.A. Gonzalez-Gay, A.H. Hajeer, C. Garcia-Porrua, et al ...........................................913
Longterm Protection of Mice Against Collagen-Induced Arthritis After Short-Term LF 15-0195 Treatment: Modulation of B and T Lymphocyte Activation  P. Ducoroy, D. de Fornel, L. Dubrez-Daloz, E. Solary, P. Dutartre ...........................................918
Role of Fcγ Receptors IIA, IIIA, and IIIB in Susceptibility to RA  T.R.D.J. Radstake, E. Petit, C. Pierlot, L.B.A. van de Putte, F. Cornelis, P. Barrera ...........................................926
Therapeutic Implications for Interferon-α in Arthritis: A Pilot Study  T. Wong, B. Majchrzak, E. Bogoch, E.C. Keystone, E.N. Fish ...........................................934
The Responsiveness of Generic Health Status Measures As Assessed in Patients with RA Receiving Infliximab  A.S. Russell, B. Conner-Spady, A. Mintz, C. Mallon, W.P. Maksymowych ...........................................941
Prevalence of Secondary Amyloidosis in Asian North Indian Patients with RA  A. Wakhlu, N. Krisnani, P. Hissaria, A. Aggarwal, R. Misra ...........................................948
Health Related Quality of Life in Women with Elderly Onset RA  T. Mikuls, K. Saag, L. Criswell, L. Merlino, J.R. Cerhan ...........................................952
National Study of Cause-Specific Mortality in RA, JCA, and Other Rheumatic Conditions: A 20 Year Followup Study  E. Thomas, D.P.M. Symmons, D.H. Brewster, R.J. Black, G. Macfarlane ...........................................958
Ultrasonography Is Superior to Clinical Examination in the Detection and Localization of Knee Joint Effusion in RA  D. Kane, P.V. Balint, R.D. Sturrock ...........................................966
Cytotoxicity Responses to Peptide Antigens in RA and AS  C. Wilson, T. Rashid, H. Tiwana, et al . . . . . .972
Design, Quality, and Bias in Randomized Controlled Trials of SLE  F.B. Karassa, A. Tatsioni, J.P.A. Ioannidis ...........................................979
Antiguanosine Antibodies in Murine and Human Lupus Have the Internal Image of G-Binding Proteins  K.K. Colburn, A.L. Wong, R.H. Weisbart, L.M. Green ...........................................993
Clinical Significance of Antibodies to TS1-RNA in Patients with MCTD  K. Ikeda, Y. Takasaki, K. Hirokawa, K. Takeuchi, H. Hashimoto ...........................................998
Group Psychotherapy Reduces Illness Intrusiveness in SLE  S.M. Edworthy, P.L. Dobkin, A.E. Clarke, et al ...........................................1011
Treatment of Subglottic Stenosis, Due to WG, with Intrallesional Corticosteroids and Dilation  G.S. Hoffman, C.K. Thomas-Golbanov, J. Chan, L.M. Akst, I. Eliachar ...........................................1017
Clinical and Radiological Changes During PsA Disease Progression  M. Khan, C. Schentag, D.D. Gladman ...........................................1022
High Ferritin and Low Glycosylated Ferritin May Also Be a Marker of Excessive Macrophage Activation  O. Lambotte, P. Cacoub, N. Costedoat, G. Le Moel, Z. Amoura, J-C. Piette ...........................................1027
