The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Editorials

Citrullinated Antigens: Just Diagnostic Tools or Pathogenic Targets in Rheumatoid Arthritis?
E. Feist, G.R. Burmester          ............................................. 2103

Cardiovascular Risk in Inflammatory Rheumatic Diseases: Loose Ends and Common Threads
T.M. Farragher, I.N. Bruce          ............................................. 2105

Improving Management of Pregnancy in Antiphospholipid Antibody-Positive Women
M. Galli          .......................................................... 2108

Remember the Titanic: What We Know of Knee Osteoarthritis Is But the Tip of the Iceberg
A.E. Wluka          .......................................................... 2110

The Symptom Intensity Scale, Fibromyalgia, and the Meaning of Fibromyalgia-like Symptoms. A Review
H. Smythe          .......................................................... 2113

Articles

Serum Autoantibodies that Bind Citrullinated Fibrinogen Are Frequently Found in Patients with RA

HLA-DRB1*04 Alleles in Japanese RA Patients with AA Amyloidosis

Cost-Effectiveness of Biologic Agents for Treatment of Autoimmune Disorders: Structured Review of the Literature
R. Fleurence, E. Spackman          ............................................. 2124

Declining Trend in the Incidence of RF-Positive RA in Finland 1980-2000
O. Kaipiainen-Seppanen, H. Kautiainen          ............................................. 2132

Association of RA with Ergothioneine Levels in RBC: A Case Control Study
D. Taubert, A. Lazar, G. Grimberg, et al          ............................................. 2139

An Index of Patient-Reported Outcomes (PRO-Index) Discriminates Effectively Between Active and Control Treatment in 4 Clinical Trials of Adalimumab in RA
T. Pincus, C. Chung, O.G. Segurado, I. Amara, G.G. Koch          ............................................. 2146

Comparison of Tacrolimus and Mizoribine in a Randomized, Double-blind Controlled Study in Patients with RA
S. Kawai, H. Hashimoto, H. Kondo, T. Murayama, T. Kiuchi, T. Abe          ............................................. 2153

Reduction of Inflammatory Biomarker Response by Abatacept in Treatment of RA
M.H. Weisman, P. Durez, D. Hallegua, et al          ............................................. 2162

CVD and Risk Factors in Patients with RA, PsA, and AS
C. Han, D.W. Robinson Jr, M.V. Hackett, L.C. Paramore, K.H. Fraeman, M.V. Bala          ............................................. 2167

Echocardiographically Guided Pericardiocentesis for Treatment of Clinically Significant Pericardial Effusion in RA
S.A. Cauduro, K.G. Moder, H.S. Luthra, J.B. Seward          ............................................. 2173

Posterior Reversible Encephalopathy Syndrome — An Underrecognized Manifestation of SLE
J.K. Kur, J.M. Esdaile          ............................................. 2178

Ibuprofen Fails to Prevent Brain Pathology in a Model of Neuropsychiatric Lupus
D.A. Ballard, X. Ma, J.A. Denburg, L. Arsenault, B. Sakic          ............................................. 2199

Association Between aPL and Recurrent Fetal Loss in Women Without Autoimmune Disease: A Metaanalysis
L. Opatrny, M. David, S.R. Kahn, I. Shrier, E. Rey          ............................................. 2214

Postpartum Management of Women at Increased Risk of Thrombosis — Results of a Canadian Pilot Survey
K.A. Spitzer, K. Murphy, M. Crowther, C.A. Clark, C.A. Laskin          ............................................. 2222

Autoimmune Disease Aggregation in Families with Primary SS
J-M. Anaya, G.J. Tobon, P. Vega, J. Castiblanco          ............................................. 2227

Lower Adrenocortical and Adrenomedullary Responses to Hypoglycemia in Premenopausal Women with SSc
R. Imrich, J. Lukac, J. Rovensky, et al          ............................................. 2235

Development and Validation of a Simple Tape-based Measurement Tool for Recording Cervical Rotation in Patients with AS: Comparison with a Goniometer-based Approach
W.P. Maksymowych, C. Mallon, R. Richardson, et al          ............................................. 2242

Membrane Glucocorticoid Receptor Expression on PBMC in Patients with AS
A.B. Tryc, C.M. Spies, U. Schneider, et al          ............................................. 2249

Effect of Infliximab Therapy on Employment, Time Lost from Work, and Productivity in Patients with PsA
A. Kavanaugh, C. Antoni, P. Mease, et al          ............................................. 2254

FK506 Inhibits Murine AA Amyloidosis: Possible Involvement of T Cells in Amyloidogenesis
M. Ueda, Y. Ando, M. Nakamura, et al          ............................................. 2260
