The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Correction

Bookman AAM. Overlap syndromes: Exploring the genetic underpinnings [editorial]. J Rheumatol 2009;36:1856-7. References 6 to 11 should appear as follows. This correction applies to the printed edition only. We regret the error.

8. van der Helm-van Mil AHM, Verpoort KN, Breedveld FC, Huizinga TWJ, Toes REM, and de Vries RRP. The HLA-DRB1 shared epitope alleles are primarily a risk factor for anti-cyclic citrullinated peptide antibodies and are not an independent risk factor for development of rheumatoid arthritis. Arthritis Rheum 2006;54:1117–21.
