The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Editorials

Do Tumor Necrosis Factor Inhibitors Cause Malformations in Humans? G. Koren, M. Inoue ........................................ 465
Cardiovascular Outcomes in Systemic Lupus Erythematosus: Big Studies for Big Questions S. Haque, I.N. Bruce ........ 467
The Challenges of Developing Online Learning A. Cividino ................................................................. 470
Optimizing Limb Position for Measuring Knee Anatomical Axis Alignment from Standing Knee Radiographs T.D.V. Cooke, E.A. Slew .................................................. 472

Review

Bisphosphonate Associated Osteonecrosis of the Jaw
A.A. Khan, G.K.B. Sándor, E. Dore, et al. .................................. 478

Articles

Comparative Performance Analysis of 4 Different Anti-Citrullinated Protein Assays in the Diagnosis of RA
N. Mutlu, M. Bicakcigil, D.A. Tasan, A. Kaya, S. Yavuz, A.I. Ozden ................................................................. 491
The Influence of Sex on Patients with RA in a Large Observational Cohort N. Ikuni, E. Sato, M. Hoshi, et al. ............ 508
Circulating Leptin and Bone Mineral Density in RA
E.A. Aguilar-Chavez, J.I. Gamez-Nava, M.A. Lopez-Olivo, et al. ............................................................... 512
Six and 12 Weeks Treatment Response Predicts Continuation of TNF Blockade in RA: An Observational Cohort Study from Southern Sweden
A. Gütte, L.E. Kristensen, P. Geborek ........................................ 517
Patients with Moderate RA Achieve Better Disease Activity States with Etanercept Treatment Than Patients with Severe RA
E. Keystone, B. Freundlich, M. Schiff, J. Li, M. Hooper ................................................................. 522
Metaanalysis of MTHFR Polymorphisms Affecting MTX Toxicity M.C. Fisher, B.N. Cronstein ........................................ 539

Use of the T-SPOT.TB Assay to Detect Latent TB Infection Among Rheumatic Disease Patients on Immunosuppressive Therapy S.M. Behar, D.S. Shin, A. Maier, J. Coblyn, S. Heiligott, M.E. Weinblatt ................................................................. 546
The Influence of the 1997 Updated Classification Criteria for SLE: Epidemiology, Disease Presentation, and Patient Management G.Ø. Eilertsen, A. Becker-Merok, J.C. Nossent ................ 552
Antibody Reactivity to α-Enolase in Mothers of Children with Congenital Heart Block C. Llanos, E.K.L. Chan, S. Li, et al. .......... 565
Poor Outcomes After Acute Myocardial Infarction in SLE M.A. Shah, A.M. Shah, E. Krishnan ......................................... 570
The Natural History of Disability and Its Determinants in Adults with Lower Limb Musculoskeletal Pain S. Ayis, P. Dieppe ........................................ 583
Increased Expression of TLR in Aseptic Loose Periprosthetic Tissues and Septic Synovial Membranes Around Total Hip Implants Y. Tamaki, Y. Takakubo, K. Goto, et al. ........................................ 598
Gout in the Axial Skeleton R.M. Konatalapalli, P.J. DeMarco, J.S. Jelinek, et al. ........................................ 609
Is There an Urban-Rural Divide? Population Surveys of Rheumatic Musculoskeletal Disorders in the Pune Region of India Using the COPCORD Bhigwan Model V. Lago Joshi, A. Chopra ........................................ 614

Pediatric Rheumatology

Achievement of a State of Inactive Disease at Least Once in the First 5 Years Predicts Better Outcome of Patients with Polyarticular JIA A. Magnani, A. Pistorio, S. Magni-Manzoni, et al. ........................................ 628
A Safety Assessment of TNF Antibiotics During Pregnancy: A Review of the FDA Database J.D. Carter, A. Ladhan, L.R. Ricca, J. Valeriano, F.B. Vasey ............................. 635
Juvenile PsA: Longterm Outcome and Differentiation from Other Subtypes of JIA B. Flaato, G. Lien, A. Smerdel-Ramoya, O. Vinje ........................................ 642

Contents continued opposite inside back cover . . .
Images in Rheumatology

Catastrophic Antiphospholipid Syndrome in the CNS
M-N. Huang, S-C. Hsieh ................................. 651

CT Angiography of Type III Takayasu Arteritis
E.A. Abdel-Gawad, A.M. Housseini, I.M. Maged, U. Bozlar,
P.T. Norton, K.D. Hagenspiel .......................... 652

Abdominal Radiograph in SSC  U. Pua .......................... 654

A Forgotten Cause of CNS Vasculitis
P.L. Kakumani, R.A. Haji-Alli .......................... 655

Meeting Report

GRAPPA at the European League Against Rheumatism (EULAR) 2008  D.D. Gladman, P.S. Helliwell, P.J. Mease .......................... 656

Letters

A Unique Articular Manifestation in a Child with Relapsing Polychondritis S.K.F. de Oliveira, A.R. Fonseca,
R.C. Domingues, I.L. Aymoré .......................... 659

New Onset of Inflammatory Polyarthritis in a Patient Taking Adalimumab
M. Lee, R. Petroniene, C. Thorne .......................... 660

Corrections

Toll-like Receptor 4 and CD14 Polymorphisms in Ankylosing Spondylitis: Evidence of a Weak Association in Finns

Prognostic Factors for Survival in Scleroderma Associated Pulmonary Arterial Hypertension
S.R. Johnson, J.R. Swinton, J.T. Granton .......................... 661

The Efficacy and Safety of Milnacipran for Treatment of Fibromyalgia. A Randomized, Double-blind, Placebo-controlled Trial
P.J. Mease, D.J. Clauw, R.M. Gendreau, et al .......................... 661
