The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Chronic Conditions and Health Problems in Rheumatic Diseases: Comparisons with RA, Noninflammatory Rheumatic Disorders, SLE, and FM
F. Wolfe, K. Michaud, T. Li, R.S. Katz .......................... 305

Negative Relationship Between Expression of GRα and Disease Activity: Glucocorticoid Treatment of Patients with SLE
X. Li, F-S. Zhang, J-H. Zhang, J-Y. Wang .......................... 316

Risk Factors for Clinical Coronary Heart Disease in SLE: The Lupus and Atherosclerosis Evaluation of Risk (LASER) Study
S. Haque, C. Gordon, D. Isenberg, et al ............................ 322

Natural History of Cervical Papilloma Virus Infection in SLE — A Prospective Cohort Study
L-S. Tam, P.K.S. Chan, S.C. Ho, et al ............................... 330

Pancreatitis in SLE: Frequency and Associated Factors — A Review of the Hopkins Lupus Cohort
A. Makol, M. Petri .................................................. 341

Possible Reactivation of Potential HBV Occult Infection by TNF-α Blocker in the Treatment of Rheumatic Diseases
Y.J. Kim, S-C. Bae, Y-K. Sung, et al ............................... 346

Association Between a CTGF Gene Polymorphism and SSc in a French Population
B. Granel, L. Argiro, E. Hachulla, et al ............................ 351

Sensitivity to Change in SSc of the McMaster-Toronto Arthritis Patient Preference Disability Questionnaire (MACTAR): Shift in Patient Priorities Over Time
C. Nguyen, L. Mouton, C. Mestre-Stanislas, et al ............................. 359

Pulmonary Manifestations in Sjögren’s Syndrome: Correlation Analysis Between Chest CT Findings and Clinical Subsets with Poor Prognosis in 80 Patients
M. Watanabe, T. Naniwa, M. Hara, T. Arakawa,
T. Maeda .......................................................... 365

Predictors of Damage and Survival in Patients with Wegener’s Granulomatosis: Analysis of 50 Patients

Association of ARTS1 Gene Polymorphisms with AS in the Hungarian Population: The rs27044 Variant Is Associated with HLA-B*2705 Subtype in Hungarian Patients with AS
B. Pazár, E. Sáfrány, P. Gergely, S. Szántó,
Z. Szekanecz, G. Poór ........................................... 379

Impact of Age, Sex, Physical Function, HRQOL, and Treatment with Adalimumab on Work Status and Work Productivity of Patients with AS
W.P. Maksymowych, K.L. Gooch, R.L. Wong,
H. Kupper, D. van der Heijde .................................... 385
