The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
The Journal of Rheumatology

VOLUME 37: NO. 5

Editorials

Are Physician-derived Joint Counts Obsolete?
E.C. Keystone ......................................................... 883

Mismatch Between Skills of Patients and Tools in Use: Might Literacy Affect Diagnoses and Research?
R.E. Rudd ................................................................. 885

The Challenges of Quantifying the Risk of Serious Infection with Tumor Necrosis Factor Antagonist Therapy
J. Leombruno ............................................................. 887

Atherosclerosis in Rheumatoid Arthritis: What to Look For in Studies Using Carotid Ultrasound
I. Del Rincon ............................................................... 890

Review

More Night Than Day — Circadian Rhythms in Polymyalgia Rheumatica and Ankylosing Spondylitis
C.M. Spies, M. Cutolo, R.H. Straub, G.R. Burmester, F. Buttgereit ................................................. 894

Articles

Genetic Variations in Genes Encoding RANK, RANKL, and OPG in RA: A Case-Control Study
G. Assmann, J. Koening, M. Pfleundschuh, et al. ................................................................. 900

Decreased Circulating CD28– T Cells in Patients with RA Treated with Abatacept Are Correlated with Clinical Response
M. Scarsi, T. Ziglioli, P. Airò ................................................................. 911

Efficacy and Safety of Retreatment in Patients with RA with Previous Inadequate Response to TNF Inhibitors: Results from the SUNRISE Trial
P.J. Mease, S. Cohen, N.B. Gaylis, et al. ................................................................. 917

Observational Studies of Infections in RA: A Metaanalysis of TNF Antagonists
S. Bernatsky, Y. Habel, E. Rahme ................................................................. 928

Reproducibility of Joint Swelling Assessments in Long-lasting RA: Influence on Disease Activity Score-28 Values (SEA-Repro Study Part I)

Reproducibility of Joint Swelling Assessment by Sonography in Patients with Long-lasting RA (SEA-Repro Study Part II)
S. Jousse-Joulin, M.A. d’Agostino, T. Marhadour, et al. ................................................................. 938

Relationship Between Arterial Stiffness and Stanford HAQ Disability in RA Patients without Overt Arterial Disease
M.A. Crilly, H.J. Clark, V. Kumar, N.W. Scott, A.G. MacDonald, D.J. Williams ................................................................. 946

Risk Factor Profiles for Atherosclerotic Cardiovascular Disease in Black and Other Africans with Established RA
A. Solomon, B.F. Christian, G.R. Norton, A.J. Woodiwiss, P.H. Dessein ................................................................. 953

Health Literacy Predicts the Discrepancy Between Patient and Provider Global Assessments of RA Activity at a Public Urban Rheumatology Clinic

Cytokine Profile of Macrophage Activation Syndrome Associated with Rheumatic Diseases
J. Maruyama, S. Inokuma ................................................................. 967

White-matter Volume Reduction and the Protective Effect of Immunosuppressive Therapy in SLE Patients with Normal Appearance by Conventional MRI
J. Xu, Y. Cheng, P. Chai, et al. ................................................................. 974

Phenotype-Haplotype Correlation of IRF5 in SSC: Role of 2 Haplotypes in Disease Severity
P. Dieudé, K. Dawidowicz, M. Guedj, et al. ................................................................. 978

Estimated Dependence in Cardiac Involvement in SSC Assessed by Tissue-Doppler Echocardiography: Relationship with Neurovascular Activation and Endothelial Dysfunction
T. Dimitroulas, G. Giannakoules, K. Papadopoulou, et al. ................................................................. 993

ILD Associated with Anti-PM/ScI or Anti-Aminoacyl-tRNA Synthetase Autoantibodies: A Similar Condition?
J-C. Lega, V. Cottin, N. Fabien, F. Thivolet-Bejui, J-F. Cordier ................................................................. 1000

Estimating Indirect Costs in Primary Sjögren’s Syndrome
S.J. Bowman, Y. St. Pierre, N. Sutcliffe, et al. ................................................................. 1010

Influence of STAT4 Polymorphism in Primary Sjögren’s Syndrome

Lack of Association Between the rs6920220 (G/A) Polymorphism of the 6q23 Region and Biopsy-proven Giant Cell Arteritis

Minimaly Important Difference for Patient-reported Outcomes in Psoriatic Arthritis: Health Assessment Questionnaire and Pain, Fatigue, and Global Visual Analog Scales
T. Kwok, J.E. Pope ................................................................. 1024

Serum Calprotectin as a Marker for Disease Activity and Severity in Adult-onset Still’s Disease

Patient-derived Joint Counts Are a Potential Alternative for Determining Disease Activity Score
A. Kavanaugh, S-J. Lee, H-H. Weng, Y. Chon, X-Y. Huang, S-L. Lin ................................................................. 1035
Single-joint Outcome Measures: Preliminary Validation of Patient-reported Outcomes and Physical Examination
A.E. Heald, E.J. Fudman, P. Anklesaria, P.J. Mease, on behalf of the 13G01 Study Team 1042

Pediatric Rheumatology
Outcomes of Children Treated for Lyme Arthritis: Results of a Large Pediatric Cohort
H.O. Tory, D. Zurakowski, R.P. Sundel 1049

Images in Rheumatology
Cardiovascular MRI of Myocardial Fibrosis in DM
C. Arnold, H. Abdel-Aty, C. Tillmanns 1056
Intratendinous Power Doppler Changes Related to Patient Position in SeroNegative Spondyloarthritis
E. Filippucci, W. Grassi, M. Rosenffet 1057
Bilateral Subcutaneous Patellar Calcifications and Unilateral Bursitis in Scleroderma
S. Mathieu, M. Soubrier, J-J. Dubost 1060
