The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Editorials

All That Glitters Is Not Gold — Standardizing Diagnosis in Rheumatoid Arthritis Studies K.P. Liao, V. Bykerk .......................................................... 1223

Who’s Holding up the Queue? Delay in Treatment of Rheumatoid Arthritis J.E. Homik .......................................................... 1225

Rehabilitation for Ankylosing Spondylitis in the Era of Biologics: Any Room Left for This Treatment? E. Lubrano, S. D’Angelo, A. Spadaro, C. Palazzi, I. Olivieri ...................................................... 1228

Should Clinicians Start Measuring Flow Mediated Dilation Response in Patients with Systemic Lupus Erythematosus? C.S. Lau .......................................................... 1231

Review

Challenges in Diagnosing Latent TB Infection in Patients Treated with TNF Antagonists E.C. Keystone, K.A. Papp, W. Wobeser ...................................................... 1234

Articles

Diagnostic Accuracy of ACR/EULAR 2010 Criteria for RA in a 2-Year Cohort S. Varache, D. Cornec, J. Morvan, et al .......................................................... 1250

A Comparison Between IgG- and IgA-class Antibodies to CCP and to Modified Citrullinated Vimentin in Early RA and Very Early Arthritis A. Svärd, A. Kastbom, M.K. Söderlin, Å. Reckner-Olsson, T. Skogh .......................................................... 1265

Persistence with Anti-TNF Therapies in Patients with RA: Observations from the RADIUS Registry J.A. Markenson, A. Gibofsky, W.R. Palmer, et al .......................................................... 1273

Time to Treatment for New Patients with RA in a Major Metropolitan City S. Jamal, S.M.H. Albhai, E.M. Badley, C. Bombardier .......................................................... 1282

Prognostic Indicators of Hospitalized Patients with SLE: A Large Retrospective Multicenter Study in China X. Feng, Y. Zou, W. Pan, et al .......................................................... 1289

Endothelium-dependent But Not Endothelium-independent Flow-mediated Dilation Is Significantly Reduced in Patients with SLE without Vascular Events: A Metaanalysis and Metaregression A. Mak, Y. Liu, R.C-M Ho .......................................................... 1296

Longterm Followup After Tapering MMF During Maintenance Treatment for Proliferative Lupus Nephritis K. Laskari, A.G. Tzioufas, A. Antoniou, H.M. Moutsopoulos .......................................................... 1304

Quantitative Data for Care of Patients with SLE in Usual Clinical Settings: A Patient Multidimensional HAQ and Physician Estimate of Noninflammatory Symptoms A.D. Askarane, I. Castrejón, T. Pincus .......................................................... 1309

Late-age Onset SSc R.L. Manno, F.M. Wigley, A.C. Gelber, L.K. Hummers .......................................................... 1317

Expert Agreement on EULAR/EUSTAR Recommendations for the Management of SSc K.M. Walker, J. Pope, on behalf of the Scleroderma Clinical Trials Consortium and the Canadian Scleroderma Research Group .......................................................... 1326

Rehabilitation Treatment in Patients with AS Stabilized with TNF Inhibitor Therapy, A Randomized Controlled Trial S. Masiero, L. Bonaldo, M. Pigatto, A. Lo Nigro, R. Ramonda, L. Punzi .......................................................... 1335

Resolution of Inflammation Following Treatment of AS Is Associated with New Bone Formation S.J. Pedersen, P. Chiowchanwisawakit, R.G.W. Lambert, M. Østergaard, W.P. Maksymowych .......................................................... 1349

Candidate Genes in Patients with Autoinflammatory Syndrome Resembling TNF Receptor-associated Periodic Syndrome Without Mutations in the TNFRSF1A Gene S. Borghini, M. Fiore, M. Di Duca, et al .......................................................... 1378
