The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Patients with RA and CVD
Differentiation Factor 15 and in the 9p21.3 Region in Polymorphisms of the Genes Encoding Activity in RA
on Myeloid Cells-1 (sTREM-1) Are Correlated with Disease Levels of Plasma-soluble Triggering Receptor Expressed in RA
Heterogeneity of ACPA and Response to Anti-TNF Agents Profiles as Markers of Tocilizumab Treatment in RA
Peripheral Blood Gene Expression and IgG Glycosylation Studies Establish TNFSF4 as a Susceptibility Gene
Preferentially Associated with the Subset of ACA-positive Patients with Systemic Sclerosis

Hypothyroidism as a Risk Factor for Development of Cardiovascular Disease in Patients with RA

Incidence of New-onset and Flare of Preexisting Psoriasis During Rituximab Therapy for RA: Data from the French AIR Registry

Risk of GI Events in Patients with RA After Withdrawal of Rofecoxib

Peripheral Blood Gene Expression and IgG Glycosylation Profiles as Markers of Tocilizumab Treatment in RA

Heterogeneity of ACPA and Response to Anti-TNF Agents in RA

Levels of Plasma-soluble Triggering Receptor Expressed on Myeloid Cells-1 (sTREM-1) Are Correlated with Disease Activity in RA

Polymorphisms of the Genes Encoding CD40 and Growth Differentiation Factor 15 and in the 9p21.3 Region in Patients with RA and CVD

The Journal of Rheumatology
