The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Patients with RA and CVD

Differentiation Factor 15 and in the 9p21.3 Region in Polymorphisms of the Genes Encoding Activity in RA

on Myeloid Cells-1 (sTREM-1) Are Correlated with Disease Levels of Plasma-soluble Triggering Receptor Expressed in RA

Heterogeneity of ACPA and Response to Anti-TNF Agents Profiles as Markers of Tocilizumab Treatment in RA

Peripheral Blood Gene Expression and IgG Glycosylation

YouTube for Information on RA — A Wakeup Call?

Incidence of New-onset and Flare of Preexisting Psoriasis During Rituximab Therapy for RA: Data from the French AIR Registry

Risk of GI Events in Patients with RA After Withdrawal of Rofecoxib

Peripheral Blood Gene Expression and IgG Glycosylation

Hypothyroidism as a Risk Factor for Development of Cardiovascular Disease in Patients with RA

Changes in Regional Brain Morphology in Neuropsychiatric SLE

Systemic Sclerosis Fibroblasts Show Specific Alterations of IFN-γ and TNF-α-induced Modulation of IL-6 and CCL2

Progression of Esophageal Dysmotility in Systemic Sclerosis

Effect of GI Manifestations on Quality of Life in Consecutive Patients with Systemic Sclerosis

Home Parenteral Nutrition in Patients with Systemic Sclerosis: A Retrospective Review of 12 Cases

Clinical Features of Late-onset Ankylosing Spondylitis: Comparison with Early-onset Disease

Clinical, Functional, and Radiographic Differences Among Juvenile-onset, Adult-onset, and Late-onset Ankylosing Spondylitis

Hypothyroidism in Rheumatoid Arthritis — To Screen or Not to Screen? H.G. Rateman, M.T. Nummohamed ....... 885

Juvenile Versus Adult-Onset Ankylosing Spondylitis: Are We Comparing Apples and Oranges?

Consider the Tidemark
