The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Editorials

Osteonecrosis of the Jaw and Rheumatoid Arthritis. Is It the Disease or the Drugs?  R. Landesberg, P. Taxel ........................ 749
Prevention of Rheumatoid Arthritis: The Very First Steps  A. Masetto, M-C. Beaulieu, G. Boire ................................. 752
The Real World of Gout  R. Conway .................................................... 755
Jeopardizing Validity by Mismeasurement of Quality of Life  J. Richardson, N.A. Day .................................................... 758

Review

Reaching the Threshold: A Multilayer Pathogenesis of Macrophage Activation Syndrome  R. Strippoli, I. Caiello, F. De Benedetti ......................... 761

Articles

Long term Safety and Efficacy of Tocilizumab in Patients with RA: A Cumulative Analysis of Up to 4.6 Years of Exposure  M.C. Genovese, A. Rubbert-Roth, J.S. Smolen, et al ........ 768
Safety of Abatacept Administered Intravenously in Treatment of RA: Integrated Analyses of up to 8 Years of Treatment from the Abatacept Clinical Trial Program  M.E. Weinblatt, L.W. Moreland, R. Westhovens, et al .......... 787
Association of Polymorphisms Modulating LDL Cholesterol with Susceptibility, Severity, and Progression of RA  Y-J. Park, S-A. Yoo, S. Choi, et al ........................................... 798
First-degree Relatives of Patients with RA Exhibit High Prevalence of Joint Symptoms  I. Smolik, D.B. Robinson, C.N. Bernstein, H.S. El-Gabalawy .......................................................... 818
HDL Profiling Changes in Patients with RA Treated with TNF Inhibitors: A Cohort Study  A. Jamnitski, J.H. Levels, I.A. van den Oever, M.T. Nurmohamed ................................................................. 825
Association of Gastroesophageal Factors and Worsening of Forced Vital Capacity in SSc  X.J. Zhang, A. Bonner, M. Hudson, the Canadian Scleroderma Research Group, M. Baron, J. Pope ............................... 850
Soluble Biomarkers Associated with Response to Treatment with TNF Inhibitors in PsA  V. Chandran, H. Shen, R.A. Pollock, et al ............................. 866
Efficacy and Tolerability of Probencid as Urate-lowering Therapy in Gout; Clinical Experience in High-prevalence Population  K. Pui, P.J. Gow, N. Dalbeth ............................................. 872
Expression of PPAR α, β, γ, and H- and L-Prostaglandin D Synthase During OA in the Spontaneous Hartley Guinea Pig and Experimental Dog Models  S-S. Nebbaki, F.E. El Mansouri, H. Afif, et al .......................... 877
Kynurenic Acid in Synovial Fluid and Serum of Patients with RA, SpA, and OA  J. Parada-Turska, W. Zgrajka, M. Majdan ................................ 903
Statin Use in Giant Cell Arteritis: A Retrospective Study  J. Schmidt, T.A. Kermani, F. Muratore, C.S. Crowson, E.L. Matteson, K.J. Warrington ............................................. 910
