The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Editorials

Osteonecrosis of the Jaw and Rheumatoid Arthritis. Is It the Disease or the Drugs? R. Landesberg, P. Taxel ............................... 749

Prevention of Rheumatoid Arthritis: The Very First Steps
A. Masetto, M-C. Beaulieu, G. Boire .................................................. 752

The Real World of Gout R. Conway ....................................................... 755

Jeopardizing Validity by Mismeasurement of Quality of Life J. Richardson, N.A. Day .................................................. 758

Review

Reaching the Threshold: A Multilayer Pathogenesis of Macrophage Activation Syndrome
R. Strippoli, I. Caiello, F. De Benedetti ............................................ 761

Articles

Longterm Safety and Efficacy of Tocilizumab in Patients with RA: A Cumulative Analysis of Up to 4.6 Years of Exposure
M.C. Genovese, A. Rubbert-Roth, J.S. Smolen, et al ...................... 768

Osteonecrosis of the Jaw and Nonmalignant Disease: Is There an Association with RA?
G. Lescaille, A.E. Coutard, V. Baaroun, et al ........................................ 781

Safety of Abatacept Administered Intravenously in Treatment of RA: Integrated Analyses of up to 8 Years of Treatment from the Abatacept Clinical Trial Program
M.E. Weinblatt, L.W. Moreland, R. Westhovens, et al ......................... 787

Association of Polymorphisms Modulating LDL Cholesterol with Susceptibility, Severity, and Progression of RA
Y-J. Park, S-A. Yoo, S. Choi, et al .......................................................... 798

CV Events Are Not Associated with MTHFR Polymorphisms, But Are Associated with MTX Use and Traditional Risk Factors in US Veterans with RA

First-degree Relatives of Patients with RA Exhibit High Prevalence of Joint Symptoms

HDL Profiling Changes in Patients with RA Treated with TNF Inhibitors: A Cohort Study
A. Jamnitski, J.H. Levels, I.A. van den Oever, M.T. Nurmohamed . 825

The Early Protective Effect of HCQ on the Risk of Cumulative Damage in Patients with SLE
P.S. Akhavan, J. Su, W. Lou, D.D. Gladman, M. Urowitz, P.R. Fortin ... 831

Variable Association of Reactive Intermediate Genes with SLE in Populations with Different African Ancestry

Association of Gastroesophageal Factors and Worsening of Forced Vital Capacity in SSc
X.J. Zhang, A. Bonner, M. Hudson, the Scleroderma Research Group, M. Baron, J. Pope .................. 850

Comparison of EQ-5D and SF-6D Utility Scores in Multiethnic Asian Patients with PsA: A Cross-sectional Study
Y-Y. Leung, M-E. Png, H-L. Wee, J. Thumboo ..................................... 859

Soluble Biomarkers Associated with Response to Treatment with TNF Inhibitors in PsA
V. Chandran, H. Shen, R.A. Pollock, et al .......................................... 866

Efficacy and Tolerability of Probenecid as Urate-lowering Therapy in Gout; Clinical Experience in High-prevalence Population
K. Pui, P.J. Gow, N. Dalbeth ............................................................... 872

Expression of PPAR α, β, γ, and H- and L-Prostaglandin D Synthase During OA in the Spontaneous Hartley Guinea Pig and Experimental Dog Models
S-S. Nebbaki, F.E. El Mansouri, H. Afif, et al ..................................... 877

Identifying Phenotypes of Knee OA by Separate Quantitative Radiographic Features May Improve Patient Selection for More Targeted Treatment

Kynurenic Acid in Synovial Fluid and Serum of Patients with RA, SpA, and OA
J. Parada-Turska, W. Zgrajka, M. Majdan ........................................ 903

Statin Use in Giant Cell Arteritis: A Retrospective Study
J. Schmidt, T.A. Kermani, F. Muratore, C.S. Crowson, E.L. Matteson, K.J. Warrington .................................................. 910

Contents continued opposite inside back cover ...
Antibiotics for Treatment of ReA: A Systematic Review and Metaanalysis
C.E. Barber, J. Kim, R.D. Inman, J.M. Esdaile, M.T. James

Pediatric
Childhood-onset Eosinophilic Granulomatosis with Polyangiitis (formerly Churg-Strauss Syndrome):
A Contemporary Single-center Cohort
S. Gendelman, A. Zeft, S.J. Spalding

Race, Ethnicity, and Disease Outcomes in JIA:
A Cross-sectional Analysis of the Childhood Arthritis and Rheumatology Research Alliance (CARRA) Registry
S. Ringold, T. Beukelman, P.A. Nigrovic, Y. Kimura, for the Carra Registry Investigators

Etanercept Improves Lipid Profile and Oxidative Stress Measures in Patients with JIA

Images in Rheumatology
Infectious Tenosynovitis in a Patient with Dermatopolymyositis and Vasculitis
C. Canella, M. Pacheco, F. Costa, E. Marchiori

Canadian Rheumatology Association Meeting
Ottawa, Ontario, Canada
February 13–16, 2013
Abstracts

Letters
CCL18 Activates Fibroblast-like Synoviocytes in Patients with RA
A. Takayasu, Y. Miyabe, W. Yokoyama, et al.

Cyclophosphamide Exposure in Pediatric SLE Is Associated with Reduced Serum Anti-Müllerian Hormone Levels

Meetings in Rheumatology
