The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Editorials

The Value of Studying Clinical and Serologic Phenotypes in North American Native Populations with Autoimmune Disease C. Peschken ........................................ 1031

The Ambitious Goal of Validating Prognostic Biomarkers for Systemic Sclerosis-related Interstitial Lung Disease F. Bonella, P. Caramaschi ........................................ 1034

Juvenile Idiopathic Arthritis and Pain — More Than Simple Nociception J. Munro, D. Singh-Grewal ........................................ 1037

Articles

Cholesteryl Ester Transfer Protein in Patients with RA I. Ferraz-Amaro, M.A. González-Gay, J.A. García-Dopico, F. Díaz-González ........................................ 1040

Metaanalysis of the Association of Smoking and PTPN22 R620W Genotype on Autoantibody Status and Radiological Erosions in RA L.H. Taylor, S. Twigg, J. Worthington, P. Emery, A.W. Morgan, A.G. Wilson, M.D. Teare ............. 1048

Interaction of HLA-DRB1*09:01 and *04:05 with Smoking Suggests Distinctive Mechanisms of RA Susceptibility Beyond the Shared Epitope S-Y. Bang, H-S. Lee, K.W. Lee, S-C. Bae ........................................ 1054

Sustained Clinical Remission and Rate of Relapse After Tocilizumab Withdrawal in Patients with RA L. Aguilar-Lozano, J.D. Castillo-Ortiz, C. Vargas-Serafin, et al ........................................ 1069

Serum IL-6 Before and After Therapy with Tocilizumab Is a Principal Biomarker in Patients with RA K. Shimamoto, T. Ito, Y. Ozaki, et al ........................................ 1074

Use of Lipid-lowering Agents in RA: A Population-based Cohort Study B.M. Akkara Veetil, E. Myasoedova, E.L. Matteson, S.E. Gabriel, C.S. Crowson ........................................ 1082

Golimumab in Patients with Active RA Despite MTX Therapy: Results Through 2 Years of the GO-FORWARD Study Extension E.C. Keystone, M.C. Genovese, S. Hall, et al .......... 1097

HLA-G 3’ UTR Polymorphisms Are Associated with SLE in 2 Brazilian Populations N. Lucena-Silva, V.S.B. de Souza, R.G. Gomes, et al .......... 1104

Can Serum SP-D or CCL18 Predict Outcome of Interstitial Lung Disease in Patients with Early SSc? M. Elhaj, J. Charles, C. Pedroza, et al ........................................ 1114

SSc in Canada’s North American Native Population: Assessment of Clinical and Serological Manifestations A. Bacher, S. Mittoo, M. Hudson, S. Tatibouet, the Canadian Scleroderma Research Group, M. Baron .......... 1121

Survival and Causes of Death in an Unselected and Complete Cohort of Norwegian Patients with SSc A-M. Hoffmann-Vold, Ø. Molberg, Ø. Midtvedt, T. Garen, J.T. Gran ........................................ 1127

Clinical Course, Prognosis, and Causes of Death in Mixed Connective Tissue Disease A. Hajas, P. Szodoray, B. Nakken, et al ........................................ 1134

Outcome of Pregnancy in Italian Patients with Primary Sjögren Syndrome R. Priori, A. Gattamelata, M. Modesti, et al ........................................ 1143

Anterior Chest Wall Pain in Recent Inflammatory Back Pain Suggestive of SpA. Data from the DESIR Cohort D. Wendling, C. Prati, C. Demattei, D. Louelle, P. Richette, M. Dougdos ........................................ 1148

Patient-reported HRQOL with Apremilast for PsA: A Phase II, Randomized, Controlled Study V. Strand, G. Schett, C. Hu, R.M. Stevens ........................................ 1158

Serum Urate and Incidence of Kidney Disease Among Veterans with Gout E. Krishnan, K.S. Akhras, H. Sharma, et al ........................................ 1166

Classification and Diagnostic Investigation in Inflammatory Myopathies: A Study of 99 Patients O. Danielsson, B. Lindvall, I. Gati, J. Ernerudh ........................................ 1173
Lumbar Disc Degeneration in Osteoporotic Men: Prevalence and Assessment of the Relation with Presence of Vertebral Fracture
I. Fabreguet, J. Fechtenbaum, K. Briot, S. Paternotte, C. Roux

Pediatric Rheumatology

Follistatin-like Protein 1 and the Ferritin/ESR Ratio Are Potential Biomarkers for Dysregulated Gene Expression and Macrophage Activation Syndrome in Systemic JIA
M. Gorelik, N. Fall, M. Altaye, M.G. Barnes, S.D. Thompson, A.A. Grom, R. Hirsch

Longitudinal Peripheral Blood Lymphocyte Subsets Correlate with Decreased Disease Activity in Juvenile Dermatomyositis
F.C. Ernste, C.S. Crowson, C.L. de Padilla, M.S. Hein, A.M. Reed

Decreased Pain Threshold in JIA: A Cross-sectional Study
A. Leegaard, J.J. Lomholt, M. Thastum, T. Herlin

Incidence and Prevalence of JIA Among Children in a Managed Care Population, 1996-2009
L.R. Harrold, C. Salman, S. Shoor, et al

Images in Rheumatology

More Than Meets the Wegener’s Eye
L. Meilak, N. Haliasos, A. Narducci, M. Powell

Amicrobial Pustulosis of the Folds
V. Pena-Robichaux, A. Hasan, C. McHargue
