The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Editorials

Rheumatoid Arthritis Clinical Benefits from Abatacept, Cytokine Blockers, and Rituximab Are All Linked to Modulation of Memory B Cell Responses
G.J. Silverman, A. Pelzek ........................................... 825

Growing Up and Moving On — Transition of Care for Patients with Childhood-onset Rheumatic Disease
A. Hersh ................................................................. 829

Radiography Versus Magnetic Resonance Imaging (MRI) in Juvenile Spondyloarthritis: Is the MR Image Everything?
P.F. Weiss, R.A. Colbert ................................................. 832

The Current and Future Status of Biomarkers in Osteoarthritis
D. Felson ............................................................... 834

Articles

Safety and Efficacy of Tofacitinib, an Oral Janus Kinase Inhibitor, for the Treatment of RA in Open-label, Longterm Extension Studies

Are Baseline High Molecular Weight Adiponectin Levels Associated with Radiographic Progression in RA and OA?

Late-onset Neutropenia in Patients with RA after Treatment with Rituximab

Recent Trends in Orthopedic Surgery Aiming to Improve Quality of Life for Those with RA: Data from a Large Observational Cohort
S. Momohara, E. Inoue, K. Ikari, et al .................................... 862

Arthroplasty Rates Are Increased Among US Patients with SLE: 1991–2005
C. Mertelsmann-Voss, S. Lyman, T.J. Pan, S. Goodman, M.P. Figgie, L.A. Mandl .................................................. 867

ACR Criteria at Inception, and Accrual over 5 Years in the SLICC Inception Cohort

Longterm Treatment with Endothelin Receptor Antagonist Bosentan and Iloprost Improves Fingertip Blood Perfusion in Patients with SSc
M. Cutolo, B. Ruaro, C. Pizzorni ......................................... 881

Depression and Anxiety in Psoriatic Disease: Prevalence and Associated Factors
E. McDonough, R. Ayearst, L. Eder, et al .................................... 887

General Practitioners’ Perceptions of Their Ability to Identify and Refer Patients with Suspected Axial Spondyloarthritis: A Qualitative Study
M. van Onna, S. Gorter, A. van Meerendonk, A. van Tubergen ................................................................. 897

Effect of Hydroxychloroquine on the Lipid Profile of Patients with Sjögren Syndrome M.P. Migkos, T.E. Markatseli, C. Iliou, P.V. Voulgari, A.A. Drosos .......... 900

Increased Risks of Deep Vein Thrombosis and Pulmonary Embolism in Sjögren Syndrome: A Nationwide Cohort Study
W-S. Chung, C-L. Lin, F-C. Sung, W-H. Hsu, Y-F. Chen, C-H. Kao ................................................................. 909

Predictors of Treatment Resistance and Relapse in Chinese Patients with Antineutrophil Cytoplasmic Antibody-associated Disease
Y. Cao, Z. Tian, W. Li, L. Ma, Y. Yu, W. Ren .................................. 916

Causal Attributions about Disease Onset and Relapse in Patients with Systemic Vasculitis
P.C. Grayson, N.A. Amudala, C.A. McAlear, et al ............................ 923

Plasma Fibrinogen Along with Patient-reported Outcome Measures Enhances Management of Polymyalgia Rheumatica: A Prospective Study

Associations Between Biomarkers of Joint Metabolism, Hand OA, and Hand Pain and Function: The Johnston County Osteoarthritis Project
I. Aslam, I. Perjar, X.A. Shi, et al ........................................... 938

Potential Role of Hyaluronic Acid on Bone in OA: Matrix Metalloproteinases, Aggrecanases, and RANKL Expression are Partially Prevented by Hyaluronic Acid in Interleukin 1β–stimulated Osteoblasts
Z. Madenovic, A-S. Saurel, F. Berenbaum, C. Jacques ................................................................. 945

Effect of Urate-lowering Therapies on Renal Disease Progression in Patients with Hyperuricemia
G.D. Levy, N. Rashid, F. Niu, T.C. Cheetham .................................. 955
