The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Editorials

Magnetic Resonance Imaging — Key to Understanding and Monitoring Disease Progression in Spondyloarthritis?
M. Østergaard, I.J. Sørensen .............................................. 1

Surfactant Protein D Family: Potential for Diagnosis or Monitoring Therapy in Autoimmune Diseases?
R.I. Fox, C. Fox .......................................................... 5

Progress in the Evolution of Systemic Sclerosis Classification Criteria and Recommendation for Additional Comparative Specificity Studies
A.T. Masi, T.A. Medsger Jr. ................................................. 8

Systemic Sclerosis Classification: A Rose by Any Other Name Would Smell As Sweet?
J.E. Pope ............................................................... 11

Arthritis Clinical Trials at a Crossroad
J.E. Pope, J.C. Thorne, B.P. Harauwi, J. Karsh, E.C. Keystone, L. Bennett ......................................... 14

Delivering Future Clinical Trials in Rheumatology
J.B. Galloway, D.L. Scott .................................................. 18

Reviews

Serum Soluble Bone Turnover Biomarkers in Psoriatic Arthritis and Psoriatic Spondyloarthropathy
D.R. Jadon, A.L. Nightingale, N.J. McHugh, M.A. Lindsay, E. Korendowych, R. Sengupta ........................................ 21

Classification and Diagnosis of Axial Spondyloarthritis — What Is the Clinically Relevant Difference?

Articles

Osteoprotegerin Concentrations Relate Independently to Established Cardiovascular Disease in RA

Does Socioeconomic Status Affect Outcomes in Early Inflammatory Arthritis? Data from a Canadian Multisite Suspected RA Inception Cohort

The Effect of Antiestrogen Agents on Risk of Autoimmune Disorders in Patients with Breast Cancer
J.Y. Chen, S.P. Ballou .......................................................... 55

Performance of the 2013 ACR/EULAR Classification Criteria for Systemic Sclerosis in Large, Well-defined Cohorts of SSc and Mixed Connective Tissue Disease
A-M. Hoffmann-Vold, R. Gunnarsdottir, T. Garen, Ø. Midtvedt, Ø. Molberg ................................................... 60

Longitudinal Evaluation of PROMIS-29 and FACIT-Dyspnea Short Forms in Systemic Sclerosis

Prevalence of TNF-α Blocker Immunogenicity in PsA

Development and Preliminary Validation of the SpA Research Consortium of Canada MRI Sacroiliac Joint Structural Score

Ultrasoundographic Evaluation of the Anterior Chest Wall in SpA: A Prospective and Controlled Study
F. Verhoeven, X. Guillot, M. Godfrin-Valnet, C. Prati, D. Wendling ................................................................. 87

Understanding Limitations in At-work Productivity in Patients with Active AS: The Role of Work-related Contextual Factors
A. Boonen, C. Boone, A. Albert, H. Mielants .... 93

Treatment with TNF Inhibitors in axSpA: Comparison Between Private Rheumatology Practices and Academic Centers in a Large Observational Cohort

Radiographic Hip Involvement in Ankylosing Spondylitis: Factors Associated with Severe Hip Diseases
J. Zhao, W. Zheng, C. Zhang, J. Li, D. Liu, W. Xu .... 106

Contents continued on page xxii
Etiopathogenic Role of Surfactant Protein D in the Clinical and Immunological Expression of Primary Sjögren Syndrome  
Projected Worldwide Disease Burden from Giant Cell Arteritis by 2050  
E. De Smit, A.J. Palmer, A.W. Hewitt  

Pediatric Rheumatology  
Obesity Is Associated with Greater Valgus Knee Alignment in Pubertal Children, and Higher BMI Is Associated with Greater Variability in Knee Alignment in Girls  

Images in Rheumatology  
Pulmonary Nodular Amyloidosis in Sjögren Syndrome  
R. Carbone, C. Cosso, M.A. Cimmino  
Hydroxychloroquine-induced Hyperpigmentation of the Skin  
A.H. Sawalha  
Spontaneous Bronchopleural Fistula Caused by a Cavitating Rheumatoid Mass  
C.F. Healy, J.G. Murray  

Letters  
Spondyloarthritis in African Blacks  
A.B. Maharaj, P.P. Tak  
Anti-NMDA Receptor Encephalitis in a Patient with RA  
E. Cuende, L. Ruiz  

Correction  
Intravenous Immunoglobulin Expands Regulatory T Cells in Autoimmune Rheumatic Disease (Letter)  
J. Bayry, L. Mouthon, S.V. Kaveri  

Meetings in Rheumatology
