Unraveling the Phenotypic Variability of Juvenile Idiopathic Arthritis across Races or Geographic Areas — Key to Understanding Etiology and Genetic Factors? A. Consolaro, A. Ravelli

Pain Management for the Young Adult Rheumatology Patient in an Era of Medicinal Marijuana Legalization M.A. Fitzcharles, E. Hazel, G. Taylor, L.B. Tucker

Ghost Busting, Taking the Sheet Off the Ghost R.J. Moots, K. Wilson, E.D. Silverman

How to Motivate Patients with RA to Quit Smoking H.E. Harris, F. Tweedie, M. White, K. Samson

Early Remission Is a Realistic Target in a Majority of Patients with DMARD-naive RA T. Rannio, J. Asikainen, A. Kokko, P. Hannonen, T. Sokka

Achievement of Remission and Low Disease Activity Definitions in Patients with RA in Clinical Practice: Results from the NOR-DMARD Study T. Uhlig, E. Lie, V. Norvang, et al

Myeloid-related Protein 8/14 Levels in RA: Marker of Disease Activity and Response to MTX P.S. Patro, A. Singh, R. Misra, A. Aggarwal

Clinical Characteristics and Cytokine Profiles of Organizing Pneumonia in Patients with RA Treated with or without Biologics H. Kawasumi, T. Gono, E. Tanaka, H. Kaneko, Y. Kawaguchi, H. Yamanaka

Longitudinal Evaluation of Lipoprotein Variables in SLE Reveals Adverse Changes with Disease Activity and Prednisone and More Favorable Profiles with HCQ Therapy L. Durcan, D.A. Winegar, M.A. Connelly, J.D. Otvos, L.S. Magder, M. Petri

Assessment of Fatigue in SpA and Its Association with Disease Activity C. López-Medina, R.E. Schiotis, P. Font-Ugalde, et al, on behalf of the REGISPONSER Working Group

Etanercept Increases Bone Mineral Density in AS, but Does Not Prevent Vertebral Fractures: Results of a Prospective Observational Cohort Study M.A. van der Weijden, J.C. van Denderen, W.F. Lems, M.T. Nurmohamed, B.A. Dijkmans, I.E. van der Horst-Bruinsma

Development of a Rheumatology-specific Patient Concerns Inventory and Its Use in the Rheumatology Outpatient Clinic Setting A.E. Ahmed, D. Lowe, J.A. Kirton, et al

How to Attract Trainees, a Pan-Canadian Perspective: Phase 1 of the “Training the Rheumatologists of Tomorrow” Project A. Cividino, V. Bakowsky, S. Barr, et al

Phenotypic Characterization of JIA in African American Children L. Fitzpatrick, K.A. Broadaway, L. Ponder, et al, for the CARRA Registry Investigators

Carotid Atherosclerosis in Adult Patients with Persistently Active JIA Compared with Healthy Controls K. Evensen, H.A. Aulie, O.M. Ronning, B. Flato, D. Russell

Two-year Efficacy and Safety of Etanercept in Pediatric Patients with Extended Oligoarthritis, Enthesitis-related Arthritis, or PsA T. Constantin, I. Foeldvari, J. Vojinovic, et al, for the Paediatric Rheumatology International Trials Organisation (PRINTO)
