The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Editors
Fish Oil and Inflammation — A Fresh Look
J.M. Kremer ....................................................... 713
The Economic Value of Genetic Testing for Tolerance of Allopurinol in Gout G.E. Shields ................................. 717
Nurse-led Care and Patients as Partners Are Essential Aspects of the Future of Rheumatology Care I. Larsson ........................................................ 720

Rheumatoid Arthritis
Patients with Early RA in the 2000s Have Equal Disability and Pain Despite Less Disease Activity Compared with the 1990s: Data from the BARFOT Study over 8 Years M.L. Andersson, K. Forslind, and I. Hafström, for the BARFOT Study Group .................................................. 723
Decreased Cardiovascular Mortality in Patients with RA in Recent Years: Dawn of a New Era in Cardiovascular Disease in RA? E. Myasoedova, S.E. Gabriel, E.L. Matteson, J.M. Davis III, T.M. Theameu, C.S. Crowson ......................... 732
Serum Levels of Interleukin 33 and Soluble ST2 Are Associated with the Extent of Disease Activity and Cutaneous Manifestations in Patients with Active AOSD J.H. Han, C.H. Suh, J.Y. Jung, et al ................................ 740
Nurse-led Care for Patients with RA: A Systematic Review of the Effect on Quality of Care S. Gamer, E. Lopatina, J.A. Rankin, D.A. Marshall ........... 757
The Association of Low Income with Functional Status and Disease Burden in German Patients with RA: Results of a Cross-sectional Questionnaire Survey Based on Claims Data J. Callhoff, A. Luque Ramos, A. Zink, F. Hoffmann, K. Albrecht ......................................................... 766
Triple Oral Therapy Versus Anti-TNF Plus MTX in Patients with RA and Inadequate Response to MTX: A Systematic Literature Review J. Mary, M. De Bandt, C. Lukas, J. Morel, B. Combe .... 773

Spondyloarthritis
The Use of MRI in AxSpA: Time to Bridge the Gap Between Radiologists and Rheumatologists A.N. Bennett, H. Marzo-Ortega, D. Kaur-Papadakis, A. Rehman, on behalf of BRITSpA ....................... 780

Psoriatic Arthritis
Endocrine Comorbidities in Patients with PsA: A Population-based Case-controlled Study A. Haddad, R.I. Ashkenazi, H. Bitterman, et al .................................. 786

Systemic Sclerosis
Reliability and Validity of the Tender and Swollen Joint Counts and the Modified Rodnan Skin Score in Early dcSSc: Analysis from the Prospective Registry of Early SSc Cohort J.K. Gordon, G. Girish, V.J. Berrocal, et al .................. 791
Structural Validity of the Rheumatology Attitudes Index in SSc: Analysis from the UCLA Scleroderma Quality of Life Study S. Gholizadeh, S.D. Mills, R.S. Fox, et al ......................... 795

Vasculitis
Interferon-α for Induction and Maintenance of Remission in EGPA: A Single-center Retrospective Observational Cohort Study B. Seeliger, M. Förster, J. Happe, et al ......................... 806

Myositis
Subclinical Cardiac Dysfunction in PM and DM: A Speckle-tracking Case-control Study F. Guerra, C. Gelardi, A. Capucci, A. Gabrielli, M.G. Danielli ......................................................... 815
Pediatric Rheumatology

Predictors of Relapse after Discontinuing Systemic Treatment in Childhood Autoimmune Chronic Uveitis
G. Simonini, C. Bracaglia, M. Cattalini, et al... 822

Submaximal Exercise Capacity in Juvenile DM after Longterm Disease: The Contribution of Muscle, Lung, and Heart Involvement
K.S. Berntsen, A. Tollisen, T. Schwartz, et al... 827

Cost-effectiveness Analysis for Genotyping before Allopurinol Treatment to Prevent Severe Cutaneous Adverse Drug Reactions
C.H. Ke, W.H. Chung, Y.H. Wen, et al... 835

Gout

Cost-effectiveness Analysis for Genotyping before Allopurinol Treatment to Prevent Severe Cutaneous Adverse Drug Reactions
C.H. Ke, W.H. Chung, Y.H. Wen, et al... 835
