*The Journal of Rheumatology* is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
## Editorials

**Fish Oil and Inflammation — A Fresh Look**  
J.M. Kremer .................................................. 713

**The Economic Value of Genetic Testing for Tolerance of Allopurinol in Gout**  
G.E. Shields .................................................. 717

**Nurse-led Care and Patients as Partners Are Essential Aspects of the Future of Rheumatology Care**  
I. Larsson .................................................. 720

---

## Rheumatoid Arthritis

**Patients with Early RA in the 2000s Have Equal Disability and Pain Despite Less Disease Activity Compared with the 1990s: Data from the BARFOT Study over 8 Years**  
M.L. Andersson, K. Forslind, and I. Hafström, for the BARFOT Study Group .................................................. 723

**Decreased Cardiovascular Mortality in Patients with RA in Recent Years: Dawn of a New Era in Cardiovascular Disease in RA?**  

**Serum Levels of Interleukin 33 and Soluble ST2 Are Associated with the Extent of Disease Activity and Cutaneous Manifestations in Patients with Active AOSD**  

**Plasma Levels of Eicosapentaenoic Acid Are Associated with Anti-TNF Responsiveness in RA and Inhibit the Etanercept-driven Rise in Th17 Cell Differentiation in Vitro**  
L. Jeffery, H.L. Fisk, P.C. Calder, et al ................................ 748

**Nurse-led Care for Patients with RA: A Systematic Review of the Effect on Quality of Care**  
S. Gholizadeh, S.D. Mills, R.S. Fox, et al ............................. 757

**The Association of Low Income with Functional Status and Disease Burden in German Patients with RA: Results of a Cross-sectional Questionnaire Survey Based on Claims Data**  
J. Callhoff, A. Luque Ramos, A. Zink, F. Hoffmann, K. Albrecht .................................................. 766

**Triple Oral Therapy Versus Anti-TNF Plus MTX in Patients with RA and Inadequate Response to MTX: A Systematic Literature Review**  
J. Mary, M. De Bandt, C. Lukas, J. Morel, B. Combe .......... 773

---

## Spondyloarthritis

**The Use of MRI in AxSpA: Time to Bridge the Gap Between Radiologists and Rheumatologists**  
A.N. Bennett, H. Marzo-Ortega, D. Kaur-Papadakis, A. Rehman, on behalf of BRITSpA ........................................... 780

---

## Psoriatic Arthritis

**Endocrine Comorbidities in Patients with PsA: A Population-based Case-controlled Study**  
A. Haddad, R.I. Ashkenazi, H. Bitterman, et al ................. 786

---

## Systemic Sclerosis

**Reliability and Validity of the Tender and Swollen Joint Counts and the Modified Rodnan Skin Score in Early dcSSc: Analysis from the Prospective Registry of Early SSc Cohort**  

**Structural Validity of the Rheumatology Attitudes Index in SSc: Analysis from the UCLA Scleroderma Quality of Life Study**  
S. Gholizadeh, S.D. Mills, R.S. Fox, et al ............................. 795

**Antifibrillarin Antibodies Are Associated with Native North American Ethnicity and Poorer Survival in SSc**  
C. Mejia Otero, S. Assassi, M. Hudson, et al, and the Canadian Scleroderma Research Group, Australian Scleroderma Cohort Study, Genetics versus Environment in Scleroderma Outcome Study .................................................. 799

---

## Vasculitis

**Interferon-α for Induction and Maintenance of Remission in EGPA: A Single-center Retrospective Observational Cohort Study**  
B. Seeliger, M. Förster, J. Happe, et al ............................. 806

---

## Myositis

**Subclinical Cardiac Dysfunction in PM and DM: A Speckle-tracking Case-control Study**  
F. Guerra, C. Gelardi, A. Capucci, A. Gabrielli, M.G. Danielli .................................................. 815

---
