The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
Editorials

Fish Oil and Inflammation — A Fresh Look
J.M. Kremer .......................................................... 713

The Economic Value of Genetic Testing for Tolerance of Allopurinol in Gout
G.E. Shields .......................................................... 717

Nurse-led Care and Patients as Partners Are Essential Aspects of the Future of Rheumatology Care
I. Larsson .......................................................... 720

Rheumatoid Arthritis

Patients with Early RA in the 2000s Have Equal Disability and Pain Despite Less Disease Activity Compared with the 1990s: Data from the BARFOT Study over 8 Years
M.L. Andersson, K. Forslind, and I. Hafström, for the BARFOT Study Group .......................................................... 723

Decreased Cardiovascular Mortality in Patients with RA in Recent Years: Dawn of a New Era in Cardiovascular Disease in RA?

Serum Levels of Interleukin 33 and Soluble ST2 Are Associated with the Extent of Disease Activity and Cutaneous Manifestations in Patients with Active AOSD

Plasma Levels of Eicosapentaenoic Acid Are Associated with Anti-TNF Responsiveness in RA and Inhibit the Etanercept-driven Rise in Th17 Cell Differentiation in Vitro
L. Jeffery, H.L. Fisk, P.C. Calder, et al .......................................................... 748

Nurse-led Care for Patients with RA: A Systematic Review of the Effect on Quality of Care
S. Garner, E. Lopatina, J.A. Rankin, D.A. Marshall .......................................................... 757

The Association of Low Income with Functional Status and Disease Burden in German Patients with RA: Results of a Cross-sectional Questionnaire Survey Based on Claims Data
J. Callhoff, A. Luque Ramos, A. Zink, F. Hoffmann, K. Albrecht .......................................................... 766

Triple Oral Therapy Versus Anti-TNF Plus MTX in Patients with RA and Inadequate Response to MTX: A Systematic Literature Review
J. Mary, M. De Bandt, C. Lukas, J. Morel, B. Combe .......................................................... 773

Spondyloarthritis

The Use of MRI in AxSpA: Time to Bridge the Gap Between Radiologists and Rheumatologists
A.N. Bennett, H. Marzo-Ortega, D. Kaur-Papadakis, A. Rehman, on behalf of BRITSpA .......................................................... 780

Psoriatic Arthritis

Endocrine Comorbidities in Patients with PsA: A Population-based Case-controlled Study
A. Haddad, R.I. Ashkenazi, H. Bitterman, et al .......................................................... 786

Systemic Sclerosis

Reliability and Validity of the Tender and Swollen Joint Counts and the Modified Rodnan Skin Score in Early dcSSc: Analysis from the Prospective Registry of Early SSc Cohort

Structural Validity of the Rheumatology Attitudes Index in SSc: Analysis from the UCLA Scleroderma Quality of Life Study
S. Gholizadeh, S.D. Mills, R.S. Fox, et al .......................................................... 795

Antifibrillarin Antibodies Are Associated with Native North American Ethnicity and Poorer Survival in SSc
C. Mejia Otero, S. Assassi, M. Hudson, et al, and the Canadian Scleroderma Research Group, Australian Scleroderma Cohort Study, Genetics versus Environment in Scleroderma Outcome Study .......................................................... 799

Vasculitis

Interferon-α for Induction and Maintenance of Remission in EGPA: A Single-center Retrospective Observational Cohort Study
B. Seelig, M. Förster, J. Happe, et al .......................................................... 806

Myositis

Subclinical Cardiac Dysfunction in PM and DM: A Speckle-tracking Case-control Study
F. Guerra, C. Gelardi, A. Capucci, A. Gabrielli, M.G. Danielli .......................................................... 815

Free online via JRheum Full Release option
Predictors of Relapse after Discontinuing Systemic Treatment in Childhood Autoimmune Chronic Uveitis
G. Simonini, C. Bracaglia, M. Cattalini, et al. .......................... 822

Submaximal Exercise Capacity in Juvenile DM after Longterm Disease: The Contribution of Muscle, Lung, and Heart Involvement

Gout
Cost-effectiveness Analysis for Genotyping before Allopurinol Treatment to Prevent Severe Cutaneous Adverse Drug Reactions

Other Arthritides
Biologic DMARD-induced Neutropenia: A Registry from a Retrospective Cohort of Patients with Rheumatic Diseases Treated with 3 Classes of Intravenous bDMARD F. Espinoza, P. Le Blay, B. Combe .......................... 844

Images in Rheumatology
Antimelanoma Differentiation-associated Gene 5 DM D.J. Kurtzman, M. Weinblatt, R.A. Vleugels ........................ 850
Symptomatic Narcolepsy in Sjögren Syndrome E.K. Bae, D.A. Oh, B.N. Yoon ............................. 852

Canadian Rheumatology Association Meeting
Canadian Rheumatology Association Meeting, February 8–11, 2017. Introduction, Abstracts, Author Index ............................. 854

Correspondence
Reliability of Radiographic Assessment of Sacroiliac Joints in Patients with Suspected Early SpA: Methodological Issue S. Sabour .................... 957
Back to Basics: Clinical versus Radiologic Recognition of Spondyloarthropathy B. Rothschild ............................. 957
Reply A.A. Christiansen, K. Ruffbach, U. Weber ............ 958
Reply J.M. Kornitzer, Y. Kimura, G. Janow ........................ 960
Herpes Zoster Vaccination Compliance: The Role of Specialist Rheumatology Nurses R.D. Thakran, S.S. Baghel, R. Rawat, C. Messi ........................ 960
Reply H. Sheth, R. Aggarwal ............................. 961
Slow Advances in Supply of Canadian Rheumatologists M. Harth ........................................... 962
Reply C. Barber ............................. 962

Letter
High Accuracy and Significant Savings Using Tag-SNP Genotyping to Determine HLA-B*27 Status J. Lehr, P. Rahman, D.D. O’Rielly .......................... 962

Book Review
Kelley and Firestein’s Textbook of Rheumatology .......... 964

Meetings in Rheumatology ............................. x
