The Journal of Rheumatology is a monthly international serial edited by Earl D. Silverman featuring research articles on clinical subjects from scientists working in rheumatology and related fields.
From Bedside to Bench: The Role of Anti-Tumor Necrosis Factor Agents in the Management of Immune-Mediated Inflammatory Diseases

Introduction From Bedside to Bench: The Role of Anti-Tumor Necrosis Factor Agents in the Management of Immune-Mediated Inflammatory Diseases

Epidemiology of Immune-Mediated Inflammatory Diseases: Incidence, Prevalence, Natural History, and Comorbidities
H. El-Gabalawy, L.C. Guenther, C.N. Bernstein

Pathophysiology and Pathogenesis of Immune-Mediated Inflammatory Diseases: Commonalities and Differences

Tumor Necrosis Factor and Anti-Tumor Necrosis Factor Therapies
E.C. Keystone, C.F. Ware

Optimizing Use of Tumor Necrosis Factor Inhibitors in the Management of Immune-Mediated Inflammatory Diseases
B. Bressler, B. Haraoui, E.C. Keystone, A. Sette

Anti-Tumor Necrosis Factor Therapies in Immune-Mediated Rheumatic Diseases. Other Observations from the Clinic
A.S. Russell, J.T. Rosenbaum
