Online supplement to: Association of Body Mass Index Categories with Disease Activity and Radiographic Joint Damage in Rheumatoid Arthritis: A Systematic Review and Metaanalysis. *The Journal of Rheumatology.* doi:10.3899/jrheum.150224

ONLINE SUPPLEMENTARY DATA

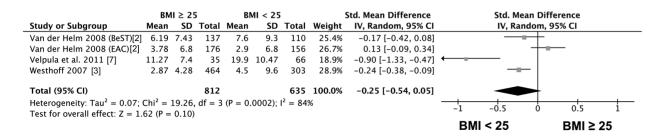

Supplementary Figure 1. Forest plot of the effect of the body mass index (overweight and obesity > 25 kg/m² versus normal weight 18.5–25 or 20–25 kg/m²) on Disease Activity Score in 28 joints.

Supplementary Figure 2. Forest plot of the effect of the body mass index (overweight and obesity > 25 kg/m² versus normal weight 18.5–25 or 20–25 kg/m²) on Health Assessment Questionnaire score.

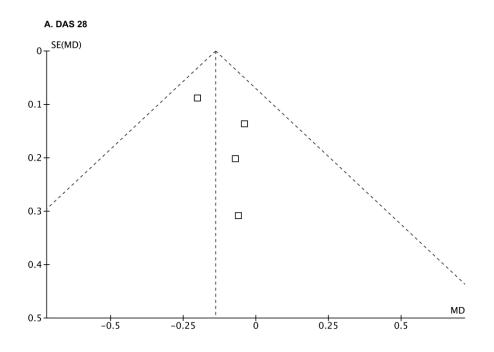

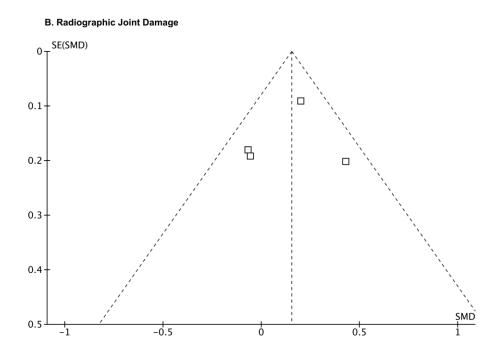

Supplementary Figure 3. Forest plot of the effect of the body mass index (overweight and obesity \geq 25 kg/m² versus normal weight < 25 kg/m²) on radiographic joint damage (standardized means).
