Managing Comorbidities in the Rheumatic Diseases: The New Reality  
B. Wang  ...........................................899

Cases of Early Inflammatory Polyarthritis Should Not Be Classified as Having RA  
D.P.M. Symmons, J.M.W. Hazes, A.J. Silman  ............902

Can Progression of Radiographic Joint Damage Be Predicted Early in RA?  
A.E. Voskuyl, M. Boers  ...................................905

Clinical Evaluation Versus Ultrasonography: Who Is the Winner?  
W. Grassi  ...............................................908

The Use of Biochemical Markers of Bone and Cartilage Metabolism to Monitor Osteoarthritis — Dreams and Reality  
P.J. Roughley, S. El-Maadawy  ................................910

Articles

Corticotropin-Releasing Hormone Promoter Polymorphisms in Patients with RA from Northwest Spain  
M.A. Gonzalez-Gay, A.H. Hajeer, C. Garcia-Porrua, et al  ...............913

Longterm Protection of Mice Against Collagen-Induced Arthritis After Short-Term LF 15-0195 Treatment: Modulation of B and T Lymphocyte Activation  
P. Ducoroy, D. de Fornel, L. Dubrez-Daloz, E. Solary, P. Dutartre  ..............................................918

Role of Fcγ Receptors IIA, IIIA, and IIIB in Susceptibility to RA  
T.R.D.J. Radstake, E. Petit, C. Pierlot, L.B.A. van de Putte, F. Cornelis, P. Barrera  ...........................................926

Therapeutic Implications for Interferon-α in Arthritis: A Pilot Study  
T. Wong, B. Majchrzak, E. Bogoch, E.C. Keystone, E.N. Fish  .................................................................934

The Responsiveness of Generic Health Status Measures As Assessed in Patients with RA Receiving Infliximab  

Prevalence of Secondary Amyloidosis in Asian North Indian Patients with RA  
A. Wakhlu, N. Krisnani, P. Hissaria, A. Aggarwal, R. Misra  .........................................................948

Health Related Quality of Life in Women with Elderly Onset RA  
T. Mikuls, K. Saag, L. Criswell, L. Merlino, J.R. Cerhan  ..........................................................952

National Study of Cause-Specific Mortality in RA, JCA, and Other Rheumatic Conditions: A 20 Year Followup Study  
E. Thomas, D.P.M. Symmons, D.H. Brewster, R.J. Black, G. Macfarlane  .....................958

Ultrasonography Is Superior to Clinical Examination in the Detection and Localization of Knee Joint Effusion in RA  
D. Kane, P.V. Balint, R.D. Sturrock  .........................................966

Cytotoxicity Responses to Peptide Antigens in RA and AS  
C. Wilson, T. Rashid, H. Tiwana, et al  .........................972

Design, Quality, and Bias in Randomized Controlled Trials of SLE  
F.B. Karassa, A. Tatsioni, J.P.A. Ioannidis  .................................................979

Neuropsychiatric Manifestations in SLE: Prevalence and Association with aPL  
G. Sanna, M.L. Bertolaccini, M.J. Cuadrado, et al  ................985

Antiguanosine Antibodies in Murine and Human Lupus Have the Internal Image of G-Binding Proteins  
K.K. Colburn, A.L. Wong, R.H. Weisbart, L.M. Green  ...........................................993

Clinical Significance of Antibodies to TS1-RNA in Patients with MCTD  

How “Soft” Are Soft Neurological Signs?  
The Relationship of Subjective Neuropsychiatric Complaints to Cognitive Function in SLE  
S.D. Denburg, K.E. Stewart, L.E. Hart, J.A. Denburg  ................................................1006

Group Psychotherapy Reduces Illness Intrusiveness in SLE  
S.M. Edworthy, P.L. Dobkin, A.E. Clarke, et al  ................1011

Treatment of Subglottic Stenosis, Due to WG, with Intraleisional Corticosteroids and Dilation  

Clinical and Radiological Changes During PsA Disease Progression  
M. Khan, C. Schentag, D.D. Gladman  ......................1022

High Ferritin and Low Glycosylated Ferritin May Also Be a Marker of Excessive Macrophage Activation  
O. Lambotte, P. Cacoub, N. Costedoat, G. Le Moel, Z. Amoura, J-C. Piette  .....................1027
