The Journal of Rheumatology

VOLUME 36: NO. 4 MAY 2009

Editorials

Hypothalamic-Pituitary-Gonadal Axis Hormones and Male Rheumatoid Arthritis: Novel Perspectives
A.T. Masi, R.T. Chatterton, J.C. Aldag ........................................... 859

Clinical Practice Guidelines and Diagnostic Uncertainty in the Management of Early Rheumatoid Arthritis
A. Hersh, J. Yazdany ................................................................. 863

Gout and Quality of Life S.Y. Kim, H.K. Choi .................................. 865

Great Expectations E.J. Carragee .................................................. 869

Articles

Identification of Proteins with Increased Expression in RA Synovial Tissues
X. Chang, Y. Cui, M. Zong, et al .................................................. 872

A Functional Haplotype of PADI4 Gene in RA: Positive Correlation in a French Population
F. Gandjbakhch, I. Fajardy, B. Ferré, et al ........................................ 881

Gonadal Hormones in Men with RA — From Onset Through 2 Years B. Tengstrand, K. Carlström, I. Hafström ... 887

Association of Measles Virus with RA
B.J. Rosenau, P.H. Schur ............................................................ 893

Postmarketing Surveillance of the Safety and Effectiveness of Etanercept in Japan

Changing Patterns of TNF Inhibitor Use in 9074 Patients with RA Y. Yazici, S. Krasnokutsky, P.L. Hines, J. Wang, L. Rosenblatt ................................................................. 907

Safety of Etanercept in Patients at High Risk for Mycobacterial Tuberculosis Infections R. Aggarwal, A.M. Manadan, A. Polyedath, W. Sequeira, J.A. Block ................................................................. 914

The RADAI-5 in Daily Use, Proposal for Disease Activity Categories B. Hentel, P.M. Hahnd, J. Sautner, B.A. Lee, C. Deutsch, B.F. Leeb ................................................................. 918

The Uses of Disease Activity Scoring and the Physician Global Assessment of Disease Activity for Managing RA in Rheumatology Practice J.T. Harrington ................................................................. 925

The Gap Between Practice and Guidelines in the Choice of First-line DMARD in Early RA: Results from the ESPOIR Cohort M. Benhamou, N. Rincheval, C. Roy, et al ........................................ 934

Contents continued opposite inside back cover . . .
Frequency, Risk, and Cost of Gout-related Episodes Among the Elderly: Does SUA Level Matter?  

Quality of Life and Disability in Patients with Treatment-Failure Gout  

OA Measurement in Routine Rheumatology Outpatient Practice (OMIRROP) in Australia: A Survey of Practice Style, Instrument Use, Responder Criteria, and State-Attainment Criteria  
E. Bellamy, C. Wilson, N. Bellamy .......................... 1049

Delayed Gadolinium-Enhanced MRI of Cartilage: Clinical Associations in Obese Adults  
A. Anandacoomarasamy, B.M. Giuffre, S. Leibman, et al .......................... 1056

Recovery in Whiplash-Associated Disorders: Do You Get What You Expect?  
L.J. Carroll, L.W. Holm, R. Ferrari, D. Ozegovic, J.D. Cassidy .......................... 1063

What Characterizes Persons Who Do Not Report Musculoskeletal Pain? Results from a 4-year Population-based Longitudinal Study (The Epifund Study)  

Pediatric Rheumatology  
Clinical Remission in Patients with Systemic JIA Treated with Anti-TNF Agents  
R.A.G. Russo, M.M. Katsicas .......................... 1078

Images in Rheumatology  
A Calcified Gluteal Mass  
S. Suetke, C.S. Haas .......................... 1083

Correspondence  
Use of US Veterans Affairs Administrative Databases to Study Outcomes in Patients with RA  
P. Ranganathan, A.L. Zeringue, J.R. McDonald .......................... 1084

Reply R. Khurana .......................... 1084

Letters  
Shared Epitope and Anti-CCP Antibodies: Relationship with Age at Onset and Duration of Disease in RA  

Accelerated Cutaneous Nodulosis Associated with Aromatase Inhibitor Therapy in a Patient with RA  
J. Chao, B.A. Parker, N.J. Zvaifler .......................... 1087

Cutaneous Amyloidosis Associated with Amyopathic Dermatomyositis  
Y. Taniguchi, T. Horino, Y. Terada .......................... 1088

APRT Deficiency in a Chinese Man with Early-onset Gout  
C-J. Chen, H.R. Schumacher .......................... 1090

Corrections  
Interleukin 17 (IL-17) Increases the Expression of Toll-like Receptor-2, 4, and 9 by Increasing IL-1β and IL-6 Production in Autoimmune Arthritis.  

Tumor Necrosis Factor-α –308 Genotypes Influence Inflammatory Activity and Tumor Necrosis Factor-α Serum Concentrations in Children with Juvenile Idiopathic Arthritis.
