Improve HAQ Cost-Effectiveness Based on Number Needed to Treat to Real-World Anti-TNF Treatment in RA, PsA, and AS: in Treated Patients with RA

Conventional Lipid Profile and Lipoprotein(a) Concentrations

Meniscal Tear — A Common Finding with Often Troublesome Consequences

What Is Its Clinical Value?

Meniscal Tear — A Common Finding with Often Troublesome Context?

Rheumatoid Arthritis in Recession

E-selectin, IL-18, SAA, and MMP-9 Are Associated with Clinical Response to Golimumab plus MTX in Patients with Active RA Despite MTX Therapy

Facilitating the Use of COBRA Combination Therapy in Early RA: A Pilot Implementation Study

ESR, CRP, or RF Are Normal at Presentation in 35%–45% of Patients with RA Seen Between 1980 and 2004:
Analyses from Finland and the United States

Contrast-enhanced Coded Phase-inversion Harmonic Sonography of Knee Synovitis Correlates with Histological Vessel Density: 2 Automated Digital Quantifications

Pattern of Joint Involvement and Other Disease Characteristics in 634 Patients with Arthritis of Less Than 16 Weeks’ Duration

Is Screening for Hepatitis B and Hepatitis C Useful in Patients with Recent-onset Polyarthritis?

Less Radiographic Progression with Adalimumab Plus MTX Versus MTX Monotherapy Across the Spectrum of Clinical Response in Early RA

Inhibitors in India — An Audit

Less Radiographic Progression with Adalimumab Plus MTX Versus MTX Monotherapy Across the Spectrum of Clinical Response in Early RA
