In Memoriam — Hugh A. Smythe, 1927-2012
M.B. Urowitz, D.A. Gordon, C.H. Goldsmith, F. Wolfe......343

Editorials
Patients with Rheumatoid Arthritis Have More Vulnerable Arterial Plaques, But Lowering Disease Activity May Stabilize This Threat
V.P. Van Halm..........................................................348

Patient-reported Remission in Rheumatoid Arthritis
L.H.D. van Tuyl, M. Boers....................................................350

Adding New Perspectives to the Kaleidoscope of Remission Criteria in Rheumatoid Arthritis
M.H.Y. Ma, A.P. Cope, D.L. Scott...........................................353

Criteria for Gout Diagnosis?
E. Pascual, M. Andrés, P. Vela ...........................................356

Articles
Carotid Plaque Characteristics and Disease Activity in RA

Effects of Fostamatinib (R788), an Oral Spleen Tyrosine Kinase Inhibitor, on HRQOL in Patients with Active RA: Analyses of Patient-reported Outcomes from a Randomized, Double-blind, Placebo-controlled Trial
M.E. Weinblatt, A. Kavanagh, M.C. Genovese, et al..............369

Agreement Between DAS28-CRP Assessed with 3 and 4 Variables in Patients with RA Treated with Biological Agents in the Daily Clinic
O.R. Madsen .................................................................379

Can Remission in RA Be Assessed Without Laboratory Tests or a Formal Joint Count? Possible Remission Criteria Based on a Self-report RAPID3 Score and Careful Joint Examination in the ESPOIR Cohort
I. Castrejón, M. Dougdos, B. Combe, F. Guillemin, B. Fautrel, T. Pincus.........................386

Remission in RA: A Comparison of the 2 Newly Proposed ACR/EULAR Remission Criteria with the RADAI-5, a Patient Self-report Disease Activity Index

Replication of European RA Loci in a Pakistani Population
S.F. Jalil, A. Bhatti, F.Y. Demirci, et al.................................401

Quantitative and Semiquantitative Bone Erosion Assessment on High-resolution Peripheral Quantitative CT in RA

Validation of a Self-administered Inflammatory Arthritis Detection Tool for Rheumatology Triage

Treatment of 139 Pregnancies in aPL-positive Women Not Fulfilling Criteria for APS: A Retrospective Study
T. Del Ross, A. Ruffatti, M.S. Visentin, et al..........................425

Excess Female Siblings and Male Fetal Loss in Families with SLE
R. Aggarwal, A.L. Sestak, E.F. Chakravarty, J.B. Harley, R.H. Scofield..........................................................430

Serum IL-6 Is Predictive of Early Functional Decline and Mortality in ILD Associated with SSC

Low Socioeconomic Status (Measured by Education) and Outcomes in SSC: Data from the CSRG
S. Mansour, A. Bonner, C. Muangchan, M. Hudson, M. Baron, J.E. Pope, and the Canadian Scleroderma Research Group.................................................................447

Gastric Antral Vascular Ectasia and Its Clinical Correlates in Patients with Early Diffuse SSC in the SCOT Trial
E.W. Hung, M.D. Mayes, R. Sharif, et al...............................455

New Centromere Autoantigens Identified in SSC Using Centromere Protein Microarrays

Influence of Environmental Factors on Disease Activity in SpA: A Prospective Cohort Study

Effect of ATRA on Th17 and T Regulatory Cell Subsets in Patients with AS
K. Bidad, E. Salehi, A. Jamshidi, et al.................................476

CYC in Anti-Jo-1-positive Patients with Corticosteroid-refractory ILD

Contents continued opposite inside back cover . . .
Coronary Artery Involvement in Takayasu Arteritis in 45 Chinese Patients
T. Sun, H. Zhang, W. Ma, et al. 493

A Delphi Exercise to Identify Characteristic Features of Gout — Opinions from Patients and Physicians, the First Stage in Developing New Classification Criteria

Pediatric Rheumatology

Psychiatric Illness of SLE in Childhood: Spectrum of Clinically Important Manifestations
