FEBRUARY 2016

Editorials

Pneumococcal Vaccination Strategies in the Real World of Chronically Ill Patients

N.M. Wulfraat, M.W. Heijstek 255

MCID – The Minimal Clinically Important Difference Assigns Significance to Outcome Effects

F. Angst 258

Review

The Genetic Epidemiological Landscape of Hip and Knee OA: Where Are We Now and Where Are We Going?

E. Zengini, C. Finan, J.M. Wilkinson 260

Articles

Longterm Efficacy of an Antipneumococcal Polysaccharide Vaccine among Patients with Autoimmune Inflammatory Rheumatic Diseases

A. Broyde, U. Arad, N. Madar-Balakirski, et al. 267

Anti-carbamylated Protein Antibody Levels Correlate with Anti-Sa (Citruillinated Vimentin) Antibody Levels in RA

G.J. Challener, J.D. Jones, A.J. Pelzek, et al. 273

A Prospective Study Investigating Prediagnostic Leukocyte Telomere Length and Risk of Developing RA in Women

J. Prescott, E.W. Karlson, E.H. Orr, R.Y. Zee, I. De Vivo, K.H. Costenbader 282

Safety and Efficacy of Open-label Subcutaneous Ixekizumab Treatment for 48 Weeks in a Phase II Study in Biologic-naïve and TNF-IR Patients with RA

M.C. Genovese, D.K. Braun, J.S. Erickson, et al. 289

Safety and Efficacy of Subcutaneous Golimumab in Patients with Active RA despite MTX Therapy: Final 5-year Results of the GO-FORWARD Trial

E.C. Keystone, M.C. Genovese, S. Hall, et al. 298

Physical and Mental Functioning in Patients with Established RA over an 11-year Followup Period: The Role of Specific Comorbidities

J. van den Hoek, L.D. Roorda, H.C. Boshuizen, G.J. Tjhuis, G.A. van den Bos, J. Dekker 307

Coronary, Carotid, and Lower-extremity Atherosclerosis and Their Interrelationship in Danish Patients with SLE

S.D. Kay, M.K. Poulsen, A.C. Diederichsen, A. Voss 315

Pulmonary Arterial Hypertension in SLE: Prevalence and Predictors

G.M. Pérez-Peñate, I. Rúa-Figueroa, G. Juliá-Serdà, et al. 323

Radiologic Changes in the Symphysis Pubis of Male Patients with Ankylosing Spondylitis

B.S. Koo, Y. Song, K.B. Joo, S. Lee, T.H. Kim 330

Whole Body MRI Features in Diffuse Idiopathic Skeletal Hyperostosis in Conjunction with Clinical Variables to Whole Body MRI and Clinical Variables in AS

B.G. Weiss, L.M. Bachmann, C.W. Pfirrmann, R.O. Kissling, V. Zubler 335

Improvement in PsO Signs and Symptoms Assessed by the Psoriasis Symptom Inventory with Brodalumab Treatment in Patients with PsA

P.J. Mease, M.C. Genovese, A. Mutebi, et al. 343

Minimal Disease Activity and Remission in PsA Patients Treated with Anti-TNF- α Drugs

F.M. Perrotta, A. Marchesoni, E. Lubrano 350

MTX Efficacy in the Tight Control in PsA Study

L.C. Coates, P.S. Helliwell 356

The Incidence and Predictors of Infection in PsO and PsA: Results from Longitudinal Observational Cohorts

A. Haddad, S. Li, A. Thavaneswaran, R.J. Cook, V. Chandran, D.D. Gladman 362

Novel Composite Radiographic Score for Longitudinal Observational Studies of PsA: A Proof-of-concept Study

W. Tillett, G. Shaddick, D. Jadon, G. Robinson, E. Korendowych, N. McHugh 367

Defining Low Disease Activity States in PsA using Novel Composite Disease Instruments

L.C. Coates, P.S. Helliwell 371

Comorbidities Associated with PsA Compared with Non-psoriatic SpA: A Cross-sectional Study

N. Haque, R.J. Lories, K. de Vlam 376

Obesity Is Common in Axial SpA and Is Associated with Poor Clinical Outcome

F. Maas, S. Arends, E. van der Veer, et al. 383

Contents continued on page xx

SMAD3 Is Upregulated in Human Osteoarthritic Cartilage Independent of the Promoter DNA Methylation <i>E. Aref-Eshghi, M. Liu, S.B. Razavi-Lopez, et al</i>	388
Examining the Minimal Important Difference of Patient-reported Outcome Measures for Individuals with Knee OA: A Model Using the Knee Injury and OA Outcome Score <i>K.A. Mills, J.M. Naylor, J.P. Eyles, E.M. Roos, D.J. Hunter</i>	395
Variations in Hip Shape Are Associated with Radiographic Knee OA: Cross-sectional and Longitudinal Analyses of the Johnston County OA Project <i>A.E. Nelson, Y.M. Golightly, J.B. Renner, et al</i>	405
Effectiveness of an Integrated Multidisciplinary OA Outpatient Program versus Outpatient Clinic as Usual: A Randomized Controlled Trial <i>R.H. Moe, M. Grotle, I. Kjekken, et al</i>	411
Development of a Prediction Model to Estimate the Risk of Walking Limitations in Patients with TKA <i>Y.H. Pua, F.J. Seah, R.A. Clark, C.L. Poon, J.W. Tan, H.C. Chong</i>	419
Retrospective Comparison of Open versus Endovascular Procedures for Takayasu Arteritis <i>C. Labarca, A. Makol, C.S. Crowson, et al</i>	427
Test-retest Reliability and Correlations of 5 Global Measures Addressing At-work Productivity Loss in Patients with Rheumatic Diseases <i>S. Leggett, A. van der Zee-Neuen, A. Boonen, et al, on behalf of the At-work Productivity Global Measure Working Group</i>	433
Disability with Persistent Pain Following an Epidemic of Chikungunya in Rural South India <i>A.A. Rahim, R.J. Thekkekara, T. Bina, B.J. Paul</i>	440
Path Analysis Identifies Receptor Activator of Nuclear Factor-κB Ligand, Osteoprotegerin, and Sclerostin as Potential Mediators of the Tophus-bone Erosion Relationship in Gout <i>A. Chhana, O. Aati, G.D. Gamble, et al</i>	445

Images in Rheumatology

A Portrait of Juvenile Arthritis with Multiple Joint Abnormalities <i>M.A. Kapusta</i>	450
Facial Rash following Infliximab Treatment <i>N.N. Carmel, Y. Levy</i>	452

Correspondence

What Is the Significance of Change of Cutpoint from 13 to 12 If Polysymptomatic Distress Is Not a Diagnostic Criterion? <i>K. Toda</i>	453
Reply <i>F. Wolfe</i>	453
The Polysymptomatic Distress Scale Is Simple, Useful, and Effective in Clinical Care and Clinical and Epidemiology Studies <i>F. Wolfe, B.T. Walitt, J.J. Rasker, R.S. Katz, W. Häuser</i>	454
Reply <i>R. Friend, R.M. Bennett</i>	455

Letters

A Fatal Case of Calciphylaxis in a Patient with SLE and Normal Renal Function <i>E.A. Pek, P.L. Joseph, A.S. Al Habeeb, L.J. Albert</i>	456
Cytomegalovirus-induced Colon Perforation in SLE <i>T. Glushko, V.A. Marcus, I. Colmegna</i>	459
An Unexpected Cause of Tenosynovitis <i>L. Chou, J. Day, S. Ciciriello</i>	461
Higher Prevalence of the Metabolic Syndrome in Patients with PsA: A Comparison with a Control Group of Noninflammatory Rheumatologic Conditions <i>M. Haroon, A. Bin Rafiq Chaudhry, O. Fitzgerald</i>	463
