

## Correction

Anti-HMGCR Autoantibodies in Juvenile Idiopathic Inflammatory Myopathies Identify a Rare but Clinically Important Subset of Patients

Tansley SL, Betteridge ZE, Simou S, Jacques TS, Pilkington C, Wood M, et al. Anti-HMGCR autoantibodies in juvenile idiopathic inflammatory myopathies identify a rare but clinically important subset of patients. *J Rheumatol* 2017; doi:10.3899/jrheum.160871. In the online version of this article, the name of the lead author and the collaborating study group were omitted from the byline. The lead author is Neil J. McHugh, on behalf of the Juvenile Dermatomyositis Research Group.

This correction has been made to the online version of the article. It should be noted that the print version of the article, and the PDF version (available online), are correct.
